Subject: [External] Please don't let the AC Pipeline be approved!

CAUTION: External email. Do not click links or open attachments unless verified. Send all suspicious email as an attachment to report.spam@nc.gov.

Dear Governor Cooper,

I am very disappointed that the AC Pipeline is being approved. As a state we can do so much better for our people and the environment. The methane from fracked gas is many times more deadly than the CO2 emissions from coal and oil. The idea that this will benefit our state economically is a fallacy. There will be very few permanent jobs. Duke Energy and Dominion are doing this to boost their overseas markets. NC does not need this gas.

I worked for your campaign and up until now have supported you. Please do the right thing and do what you can to stop the pipeline!

Sincerely,
Lauri Langham
